

Galveston County National Adoption Day

The Galveston County National Adoption Day event is sponsored for the Galveston County Adoption Day Foundation (a 501(c)(3) organization). It is the annual celebration wherein local children in CPS custody consummate their adoptions with their forever families. The actual adoptions do take place that day. To celebrate the adoptions we have a number of activities including: informational tables for fostering/adopting, presentations for the kids, games, face painting, Santa and a moon walk. This year we expect 19 children to be adopted on November 22! Please join us!

GCADF was organized to provide information concerning the need for foster and adoptive homes and to facilitate pro bono adoption services.

Mission

Our mission is to see every child in the permanent managing conservatorship of CPS adopted! We want to assist families in the adoption process so that kids have permanency!

Description

GCADF is organized exclusively for charitable and educational purposes, including: creating and providing information to promote the need for foster and adoptive homes, need to place children in permanent home environments and promoting and coordinating pro bono adoption services. We celebrated our 10 year anniversary in 2013 and are looking forward to many more successful events uniting families!

General Information

GCADF is a 501(c)(3) non profit organization. Our primary goal is to assure that children do not linger in foster care due to the inability of adoptive families to afford the adoption process. The adoption day event is a huge celebration for the families and friends of those being adopted
