What is it?

Property fraud is when an individual uses deceit to obtain financial gain, causing financial and legal damage to the rightful owner.

How does it happen?

Fraud can happen in numerous ways, but the most common method is for a person to file a document which claims ownership of a property and using it for their personal benefit without permission.

Should I be concerned?

According to the FBI Uniform Crime Report, over 1,505,823 reports for suspicious information were filed nationwide in 2011, making it the fastest growing white-collar crime in the country.

What can I do about it?

While there are many measures you can take to protect yourself, Galveston County Clerk Dwight D. Sullivan is proud to announce Property Fraud Alert, a free notification service to the residents of Galveston County that will alert subscribers when their information is used in any property filing within the County Clerk's Office.
