PROJECT NAME: Enterprise Agreement for Cisco Security Network Protection and Application

SOLICITATION NO: B191039

RE: ADDENDUM #1

To All Prospective Proposers

The following information is being provided to aid in preparation of your proposal submittal(s):

**Question #1:** Would the County consider a lead project architect without a CCIE certification if the architect has significant and substantial expertise in architecting enterprise security solutions?

Response: No, it has to be CCIE certified as specified in the RFP.

**Question #2:** Would the County consider the use of supporting project engineers without a CCIE certification if the engineers have significant and substantial expertise in implementing enterprise security solutions?

Response: Please see the response to question #1.

**Question #3:** Once the RFP is awarded what is the expected completion date for the project? This information allows me to finalize a project plan.

Response: All line items within the BOM need to be completed within 12 month of the start date.

**Question #4:** Disclosure of Interested Parties/Form 1295. Question: Do we need to submit this form with our bid response or only required if awarded the project?

Response: Form 1295 is not required to be submitted with proposer’s submittals. It will be requested from the potential awardee prior to submittal to the Commissioners’ Court for consideration.

**Question #5:** Letter at the beginning of RFP states “Sealed proposals in sets of five (5), one (1) unbound original four (4) copies and one (1) electronic version (flash drive)…” Question: When you state “unbound original” are you saying you do not want original and 4 copies in binders?
Response: All submittals can be placed in ring binders if you so choose and marked appropriately. The term “bound” in this instance means glued or bound in such a way that makes it difficult to manage for copying purposes for evaluation committee personnel.
