GENERAL PROVISIONS
BROADWAY & 54TH STREET PROPERTY
GALVESTON COUNTY, TEXAS

1. BID PACKAGE:
The Invitation to Bid, general and special provisions, drawings, specifications/line item details, contract documents and the Bid sheet are all part of the Bid package. **BIDs must be submitted in sets of four (4), one (1) original and three (3) copies** on the forms provided by the County if provided, including the Bid sheets completed in their entirety and signed by an authorized representative by original signature. Failure to complete and sign the Bid sheets/contract page(s) may disqualify the Bid from being considered by the Commissioners’ Court. Any individual signing on behalf of the Bidder expressly affirms that he or she is duly authorized to tender this Bid and to sign the Bid sheet/contract under the terms and conditions in this bid. Bidder further understands that the signing of the contract shall be of no effect unless subsequently awarded and the contract properly executed by the Commissioners’ Court. All figures must be written in ink or typed. Figures written in pencil or with erasures are not acceptable. However, mistakes may be crossed out, corrections inserted, and initialed in ink by the individual signing the bid. If there are discrepancies between unit prices quoted and extensions, the unit price shall prevail. Each Bidder is required to thoroughly review this entire Bid package to familiarize themselves with the Bid procedures, the plans and specifications for the requested work, as well as the terms, and conditions of the contract the successful Bidder will execute with the County.

2. BIDDER’S RESPONSIBILITY
The Bidder must affirmatively demonstrate its responsibility. The Bidder must also meet the following minimum requirements:

A. have adequate financial resources or the ability to obtain such resources as required;
B. be able to comply with all federal, state, and local laws, rules, regulations, ordinances and orders regarding this Request for Bid;
C. have a satisfactory record of performance;
D. have a satisfactory record of integrity and ethics;
E. and be otherwise qualified and eligible to receive an award.

3. TIME FOR RECEIVING BIDS:
Bids may be submitted by mail or hand delivery and must be submitted to the Galveston County Purchasing Agent. If by delivery, the Bidder must deliver to the reception desk in the County Purchasing Agent’s Office. The delivery and mailing instructions for the Galveston County Purchasing Agent are the following:

**Rufus Crowder, CPPO CPPB**
**Galveston County Purchasing Agent**
**722 Moody, Fifth (5th) Floor**
**Galveston, Texas 77550**

Bids will not be accepted by facsimile transmission or by electronic mail (email) unless superseded by instructions within the Special Provisions sections of this solicitation. Bids must be received by the County Purchasing Agent on or before the deadline for the opening of the bids. For clarity, mailing date/postmark is not sufficient – bids must be received by the County Purchasing Agent on or before the deadline. Late bids will not be accepted and will be returned to the bidder unopened. Bids received prior to the submission deadline will be maintained unopened until the specified time for opening.

The County Purchasing Agent will accept bids from 8:00 a.m. to 5:00 p.m. on each business day up to the submission deadline. Business days do not include Saturdays and Sundays, and do not include other days in which the County is closed for business in observance of holidays or for other reasons.

*The time-stamp clock within the County Purchasing Agent’s Office shall be the official time-clock for the purpose of this solicitation and thus shall be the determinate of whether the bid was timely received.*
GENERAL PROVISIONS
BROADWAY & 54TH STREET PROPERTY
GALVESTON COUNTY, TEXAS

The bidder should prominently identify the procurement number and name on the outside of the envelope/mailing package. A label may be provided for this purpose and usage of the label is preferred. If the bidder fails to identify the bid on the outside of the envelope as required, the Purchasing Agent will open the envelope for the sole purpose of identifying the bid number for which the submission was made. The envelope will then be resealed. No liability will attach to a County office or employee for the premature opening of a bid.

If a bid is not submitted, return this Invitation to Bid and state reason(s), otherwise your name may be removed from the Purchasing Agent’s mailing list.

4. COMPETITIVENESS, INTEGRITY, INQUIRIES AND QUESTIONS
To prevent biased evaluations and to preserve the competitiveness and integrity of the procurement process, bidders are to direct all communications regarding this invitation to bid to the Galveston County Purchasing Agent, unless otherwise specifically noted.

Do not contact the requesting department. Attempts by offering firms to circumvent this requirement will be viewed negatively and may result in rejection of the bid of the firm found to be non-compliant.

All questions regarding this Invitation to Bid must be submitted in writing to:

Rufus Crowder, CPPO CPPB, Purchasing Agent
722 Moody
Fifth (5th) Floor
Galveston, Texas 77550
Fax: (409) 621-7997
E-mail: rufus.crowder@co.galveston.tx.us

All questions received and the responses thereto will be mailed, emailed, or faxed to all prospective bidders by addendum. No inquiries except clarification of instructions will be addressed by telephone.

Bidder is advised to carefully review this Invitation to Bid – it provides specific information necessary to aid participating firms in formulating a thorough response. Bidder’s failure to examine all documents shall not entitle the bidder to any relief from the conditions imposing in the Invitation to Bid and the resultant contract.

An authorized person from the bidder must sign the bid. This signatory must be a person from the submitting firm who is duly authorized to tender and sign the bid on behalf of the bidder and bind the contract. By this signature, the bidder further acknowledges that the bidder has read the bid documents thoroughly before submitting a bid and will fulfill the obligations in accordance to the terms, conditions, and specifications detailed herein.

5. BID OPENING:
Information read aloud at the bid opening is the sole discretion of the Purchasing Agent. The Purchasing Agent will examine bids promptly and thoroughly.

6. WITHDRAWAL OF BID:
Bidders may request withdrawal of a sealed bid prior to the scheduled bid opening time provided the request for withdrawal is submitted to the Purchasing Agent in writing. No bids may be withdrawn for a period of sixty (60) calendar days after opening of the bids.

7. COMMISSIONERS’ COURT:
No contract is binding on the County until it is properly placed on the Commissioners’ Court agenda, approved in open Court, authorized to be executed by the County Judge, and fully executed by both parties. Department heads and elected officials are not authorized to enter into any type of agreement or contract on behalf of the County. Only the Commissioners’ Court acting as a body may enter into a contract on behalf of and contractually

bind the County. Additionally, department heads and elected officials are not authorized to agree to any type of supplemental agreements or contracts for goods or services. Supplemental agreements are subject to review by the County Legal Department prior to being accepted and signed by the County’s authorized representative.

8. REJECTION OF BIDS/DISQUALIFICATION:
Galveston County, acting through its Commissioners’ Court, reserves the right to:

- reject any and all Bids in whole or in part received by reason of this request for bid;
- to waive any informality in the Bids received;
- to disregard the Bid of any Bidder determined to be not responsible and/or;
- to discontinue its efforts for any reason under this Bid package at any time prior to actual execution of contract by the County.

Bidders may be disqualified and rejection of Bids may be recommended to the Commissioners’ Court for any of (but not limited to) the following causes:

A. Failure to use the bid forms furnished by the County, if applicable;
B. Lack of signature by an authorized representative of bidder;
C. Failure to properly complete the bid;
D. Failure to meet the mandatory requirements of this invitation to bid; and/or
E. Evidence of collusion among bidders.

9. RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:
It is the responsibility of the prospective Bidder to review the entire Invitation to Bid packet and to notify the Purchasing Department if the specifications are formulated in a manner that would restrict competition or appear ambiguous. Any protest or question(s) regarding the specifications or Bid procedures must be received in the Purchasing Department not less than seventy-two (72) hours prior to the time set for Bid opening. Vendors are to submit Bid as specified herein or propose an approved equal.

10. SUBSTITUTES/DESCRIPTION OF MATERIALS AND EQUIPMENT:
Any brand name or manufacturer reference used herein is intended to be descriptive and not restrictive, unless otherwise noted, and is used to indicate the type and quality of material. The term “or equal” if used, identifies commercially produced items that have the essential performance and salient characteristics of the brand name stated in the item description. All supplies, material, or equipment shall be new and of the most suitable grade for the purpose intended. It is not the County’s intent to discriminate against any materials or equipment of equal merit to those specified. However, if Bidder desires to use any substitutions, prior written approval must be obtained from the County Purchasing Agent and sufficiently in advance such that an addendum may be issued. All material supplied must be one hundred percent (100%) asbestos free. Bidder, by submission of its bid, certifies that if awarded any portion of this procurement, the bidder will supply only material and equipment that is 100% asbestos free.

11. EXCEPTIONS TO BID:
The Bidder will list on a separate sheet of paper any exceptions to the conditions of the bid. This sheet will be labeled, “Exceptions to Bid Conditions”, and will be attached to the bid. If no exceptions are stated, it will be understood that all general and specific conditions will be complied with, without exception.

The Bidder must specify in its Bid any alternatives it wishes to propose for consideration by the County. Each alternative should be sufficiently described and labeled within the Bid and should indicate its possible or actual advantage to the program being offered.

The County reserves the right to offer these alternatives to other Bidders.
GENERAL PROVISIONS
BROADWAY & 54TH STREET PROPERTY
GALVESTON COUNTY, TEXAS

12. PRICING:
Bids will be either lump sum or unit prices as shown on the Bid sheet. The net priced items will be delivered to Galveston County, including all freight or shipping charges.

Cash discount must be shown on bid, otherwise prices will be considered net. Unless prices and all information requested are complete, Bid may be disregarded and given no consideration.

In case of default by the contractor, the County of Galveston may procure the articles or services from other sources and may deduct from any monies due, or that may thereafter become due to the contractor, the difference between the price named in the contract of purchase order and the actual cost thereof to the County of Galveston. Prices paid by the County of Galveston shall be considered the prevailing market price at the time such purchase is made. Periods of performance may be extended if the facts as to the cause of delay justify such extension in the opinion of the Purchasing Agent and the Commissioners' Court.

13. PROCUREMENT CARD (P-CARD) PROGRAM:
The County of Galveston participates in a Procurement Card (P-Card) program that allows payments made to a vendor by credit card. This method normally results in substantially faster bill payments, sometimes within three (3) to five (5) days of the actual transaction date. All transaction fees from the card provider are to be paid by the successful contractor. If your company will accept payment via credit card (Visa, MasterCard), please note this in your Bid submittal.

14. PASS THROUGH COST ADJUSTMENTS:
Except in instances of extreme extenuating circumstances Contractor prices shall remain firm throughout the Contract period and any renewals. Examples of extreme extenuating circumstances include such situations as a nationwide rail strike, oil shortage or oil embargo.

In extreme extenuating circumstances, Contractors may be allowed to temporarily “pass through” additional costs they are forced to incur through no fault of their own. A request for a pass through cost increase will not be considered unless a Contractor’s cost for his product exceeds 10% over the original cost for the product. Also, the increase in cost must be nationwide and consistent for a minimum period of sixty (60) days. Costs that historically are anticipated to rise over a period of time (for example only, such as wages or insurance costs) do not qualify for pass through. If a Contractor thinks he will be asking for a pass through cost adjustment during the term of the contract, then the original cost of the product to Contractor must be stated in Contractor’s original bid.

A request for a pass through cost does not guarantee that one will be granted. Contractors must submit such information on each request as is required by the County Purchasing Agent. The County Purchasing Agent will review each request on a case-by-case basis and determine the appropriateness of each request as well as amount and duration of increase. Contractors will not be permitted any additional compensation for mark-ups or profits based on the increase in price. Rather, such additional compensation will be limited to the actual increase in original cost to the Contractor as such increase is reflected by the original cost stated in the bid. But in no event will the amount of additional compensation exceed 25% increase in Contractor’s original cost for his product as such cost is reflected in Contractor’s original Bid or the duration exceed a period of sixty (60) days. In addition, should, during the period of the pass through, cost return to normal or decrease to below pre pass through prices, appropriate downward adjustments shall be made. No more than one pass through adjustment will be permitted per year.

15. MODIFICATION OF BIDS:
A Bidder may modify a bid by letter at any time prior to the submission deadline for receipt of Bids. Modification requests must be received prior to the submission deadline. Modifications made before opening time must be initialed by Bidder guaranteeing authenticity. Bids may not be amended or altered after the official opening with the single exception that any product literature and/or supporting data required by the actual specifications, if any, will be accepted at any time prior to the Commissioners’ Court considering of same.
16. SIGNATURE OF BIDS:
Each Bid shall give the complete mailing address of the Bidder and be signed by an authorized representative by original signature with the authorized representative’s name and legal title typed below the signature line. Each bid shall include the Bidder’s Federal Employer Identification Number (FEIN). Failure to sign the Contract page(s) and bid response sheets may disqualify the bid from being considered by the County. The person signing on behalf of the Bidder expressly affirms that the person is duly authorized to tender the bid and to sign the bid sheets and contract under the terms and conditions of this Invitation to Bid and to bind the Bidder thereto and further understands that the signing of the contract shall be of no effect until it is properly placed on the Commissioners’ Court agenda, approved in open Court, authorized to be executed by the County Judge, and fully executed by both parties.

17. AWARD OF BIDS – EVALUATION CRITERIA AND FACTORS:
The award will be made to the responsible Bidder whose bid is determined to be the lowest and best evaluated offer demonstrating the best ability to fulfill the requirements set forth in this Invitation to Bid. The proposed cost to the County will be considered firm and cannot be altered after the submission deadline.

“Lowest and best” means a bid or offer providing the best value considering associated direct and indirect costs, including transport, maintenance, reliability, life cycle, warranties, and customer service after a sale.

Each Bidder, by submitting a bid, agrees that if their bid is accepted by the Commissioners’ Court, such Bidder will furnish all items and services upon which prices have been tendered and upon the terms and conditions in this bid and contract.

The contractor shall commence work only after the transmittal of a fully executed contract and after receiving written notification to proceed from the County Purchasing Agent. The contractor will perform all services indicated in the bid in compliance with this contract.

Neither department heads nor elected officials are authorized to sign any binding contracts or agreements prior to being properly placed on the Commissioners’ Court agenda and approved in open court. Department heads and other elected officials are not authorized to enter into any type of agreement or contract on behalf of Galveston County. Only the Commissioners’ Court, acting as a body, may enter into a contract on behalf of the County. Additionally, department heads and other elected officials are not authorized to agree to any type of supplemental agreements or contracts for goods or services. Supplemental agreements are subject to review by the County Legal Department prior to being signed by the County’s authorized representatives.

The County of Galveston reserves the right to accept bids on individual items listed, or group items, or on the bid as a whole; to reject any and all bids; to waive any informalities in the bids; and to accept the bid that appears to be in the best interest of the County. The selection process may, however, include a request for additional information or an oral presentation to support the written bid.

In determining and evaluating the best bid, the pricing may not necessarily be controlling, but quality, equality, efficiency, utility, general terms, delivery, suitability of the service offered, and the reputation of the service in general use will also be considered with any other relevant items. The Commissioners’ Court shall be the sole judge in the determination of these matters.

The County reserves the right to reject any or all Bids in whole or in part received by reason of this Invitation to Bid and may discontinue its efforts under this Invitation to Bid for any reason or no reason or solely for the County’s convenience at any time prior to actual execution of the contract by the County.

A Bidder whose bid does not meet the mandatory requirements set forth in this Invitation to Bid may be considered non-compliant.

The protest shall be submitted in writing to the Purchasing Agent within seven (7) calendar days after such aggrieved person knows of or should have known of the facts giving rise thereto. If the protest is not resolved by mutual agreement, the Purchasing Agent will promptly issue a decision in writing to the protestant. If the protestant wishes to appeal the decision rendered by the Purchasing Agent, such appeal must be made to the Commissioners' Court through the Purchasing Agent. The decision of the Commissioners' Court will be final. The Commissioners' Court need not consider protests unless this procedure is followed.

19. PUBLIC INFORMATION ACT (tfik/a Open Records Act):

In the event the County receives a request for information under the Public Information Act seeking information that the Bidder has marked as confidential, proprietary, and/or trade secret, then the County agrees that it shall provide notice to the Bidder of the request for decision process under the Public Information Act - thus, the County will submit initial correspondence to the Texas Attorney General. By the submission of its bid, bidder expressly acknowledges that the burden to withhold its' information from public disclosure lays with the bidder; thus, bidder further acknowledges and agrees that it shall submit comments to the Texas Attorney General in the request for decision process if bidder wishes to have it information withheld from public disclosure.

20. BIDDER'S E-MAIL ADDRESSES:
Notwithstanding the foregoing Section 18, Bidder acknowledges and agrees that the confidentiality of any and all email addresses it uses or discloses in communicating with the County are open to the public in accordance with Section 552.137 of the Government Code and consents to the release of its email addresses.

Contract documents shall consist of the contract, the General and Special Provisions, drawings, bid package (including best and final offer(s) if such is utilized), any addenda issued, and any change orders issued during the work. If bidder is required to file a CIQ Form, then the completed CIQ Form must be filed with the County Clerk of Galveston County, Texas.

Business relationship. If Bidder has an employment or other business relationship with a local government officer of Galveston County work with a family member of a local government officer of Galveston County that results in the officer or family member of the officer receiving taxable income that exceeds $2,500.00 during the preceding 12-month period, then Bidder MUST complete a CIQ Form and file the original of the CIQ Form with the County Clerk of Galveston County.

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law.

However, Galveston County cannot guarantee the availability of funds, and enters into this contract only to the extent such funds are made available through appropriation (allocation) by the Commissioners’ Court. This contract shall not be construed as creating any debt on behalf of the County of Galveston in violation of TEX. CONST. art. XI, § 7, and it is understood that all obligations of Galveston County are subject to the availability of funds.

2) The title to the property is good and marketable.

3) No responsibility for legal matters is assumed.

4) It is assumed that the property is free and clear of indebtedness of all taxes and assessments that have been paid.

5) Possession of this report does not carry with it the right of public nor may it, or any part thereof, be used by anyone but the applicant without the previous written consent of the appraiser.

6) Sketches and maps included in this report are to assist the reader to visualize the property, and responsibility is not assumed as to their accuracy as I have made no survey of the property.

7) No part of this appraisal shall be used in conjunction with any other appraisal, and all opinions expressed herein are invalid if so used.

8) We believe the information in this report to be reliable if furnished by others, but we assume no responsibility for its accuracy.

9) We are not required to give testimony or to appear in court by reason of this appraisal, with reference to the property in question, unless arrangements have been made previously.

10) Upon inspection of the subject property, no evidence of hazardous wastes was noted and, if hazardous wastes are found on the property, it may affect the value of the site. This appraisal has been made under the assumption that the subject property does not have potentially hazardous waste deposits.

11) Any lease, agreements or other written or verbal representations and/or communications and information received by the appraiser(s) have been reasonably relied upon in good faith but have not been analyzed for their legal implications. We urge and caution the user of this report to obtain legal counsel of his/her own choice to review the legal and factual matters, and to verify and analyze the underlying facts and merits of any investment decision in a reasonably prudent manner.

12) No soil or subsoil data or analysis based on engineering core borings or other tests were furnished to us. We have assumed that there are no subsoil defects present that would impair development of the land to its maximum permitted use or would render it more or less valuable. No
responsibility is assumed for engineering which might be required to discover such factors.

13) The projections of income, expenses, terminal values or future sales prices are not predictions of the future; rather, they are the best estimate of current market thinking of what the future trends will be. No warranty or representations is made that these projections will materialize. The real estate market is constantly changing. It is not the task of the appraiser to estimate the conditions of a future real estate market, but rather to reflect what the investment community envisions for the future, and upon what assumptions the future investment decisions are based.

14) The Americans with Disabilities Act (ADA) became effective January 26, 1992. We have NOT made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the ADA. INTENDED PURPOSE/INTENDED USE/INTENDED USER

This appraisal report is NOT intended to be used for estimating collateral worth for loan underwriting by federally insured financial institutions. It is intended to be used only by the client/intended user for estimating the current market value of the subject property for decision making purposes. The client & intended user is Galveston County only. Any other use or reliance of this report by the borrower or any other unauthorized third party is strictly prohibited unless otherwise specified.

Implicit in the definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under condition whereby:

(a) buyer and seller are typically motivated;
(b) both parties are well informed or well advised, and each acting in what they consider their best interest;
(c) a reasonable time is allowed for exposure in the market;
(d) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
(e) the price represents a normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale."\(^1\)

STATEMENT OF ENVIRONMENTAL CONDITION

Upon the routine inspection of the subject property, no evidence of any hazardous wastes or detrimental environmental conditions was noted; however, if hazardous wastes are found on the subject property, it may affect the value of the site and we suggest that the client obtain the services of a qualified expert to determine the status of the situation. This appraisal has been made under the assumption that the subject property does NOT have any potential hazardous waste deposits. It is possible that tests and inspections made by a qualified hazardous substance and environmental expert would reveal the existence of hazardous materials that the appraiser is not qualified to detect.
PREFACE

An appraisal is a type of investigation into the law of probabilities with respect to real estate valuation. Through the appraiser's experience, training and integrity, we are able to project the past activities of buyers in the marketplace into a forecast of real estate value. In reaching a conclusion, comparison of properties often involves adjustments due to the individuality and uniqueness of each property. Transactions involving real estate are often influenced by sentiment, bias, specific needs, politics, familiarity, lack of understanding, and other conditions not considered to be impartial to the appraiser.

An appraisal cannot be guaranteed, nor can it be proven. The opinion can, however, be substantiated and the final opinion is the result of a thorough, professional analysis of a vast quantity of physical and economic data. An appraisal must not be considered absolute, but should be used as a basis of negotiation between concerned parties, whatever their interest.

With the preceding in mind, the reader's attention is invited to the following report which points out the facts and reasoning leading to the final estimate of value.
SCOPE OF THIS APPRAISAL

The Uniform Standards of Professional Appraisal Practice, promulgated by The Appraisal Foundation, “Scope of Work Rule”² requires the appraiser:

1. identify the problem to be solved;
2. determine and perform the scope of work necessary to develop credible assignment results; and
3. disclose the scope of work in the report.

The problem to be solved in this assignment is to assist the client in forming an opinion as to the fee simple, market value of the subject property. The subject of this assignment is a 3.7595 net acre tract of land comprised of two (2) outparcels and located on the corners of Broadway and 54th Street, and Ball Street and 54th Street, in the City of Galveston, Galveston County, Texas. The outparcels of land separated by an access easement. The methodology of this appraisal was to value the two (2) outparcels independently. The access easement was not valued in this analysis.

The appraisal development, reporting process and scope of this appraisal is as follows:

1. Make an inspection of the subject property. Investigate the physical data on the subject property provided by our onsite inspection, any data or surveys provided by the client and data provided by the County Appraisal District records.

2. Consider onsite improvements, if any, and in this case, the subject is considered to be unimproved.

3. Review comparable sale service documents such as MLS, Loopnet, etc., and have discussions with active real estate agents and other knowledgeable individuals in the subject neighborhood with reference to sales and market activity/trends in the subject neighborhood.

4. Analyze the Highest and Best Use of the subject property “as though Vacant” and “as Improved.”

5. Develop an opinion of the property using the applicable appraisal methods to arrive at a credible value indication. In the case of the subject property, the Direct Sales Comparison Approach-Land to value was considered applicable and utilized.

² Uniform Standards of Professional Appraisal Practice.
in this report. The Cost Approach and Income Approach were omitted since the subject property is an unimproved tract of land.

6. Research the market for relevant sales data, comparing the findings to the subject property in the formation of a value opinion by the Direct Sales Comparison Approach-Land.

7. Reconcile the data developed above to arrive at a credible opinion as to the market value of the subject property, as of the effective date of this appraisal with an exposure time to the market as developed herein.

8. Report the findings to the client in an Appraisal Report format in compliance with the Uniform Standards of Professional Appraisal Practice.
HOUSTON AREA ANALYSIS

Analysis of the market area in which a particular property is located is an essential part of every appraisal. The subject property's market area is considered to be the Houston-Galveston-Brazoria Consolidated Metropolitan Statistical Area (CMSA) which consists of the city of Houston, Harris, Brazoria, Chambers, Fort Bend, Galveston, Liberty, Montgomery and Waller Counties. The total land area consists of approximately 8,800 square miles.

Topography. The topography of the area is generally flat, ranging from sea level to 310 feet in altitude. The southern portion of the area is prairie with few trees, while the northern portion of the area is heavily wooded. There are no natural barriers or topographical features which adversely affect any type of building conditions.

Soil and Subsoil Conditions. This area's soil and subsoil conditions are adequate for all types of construction as evidenced by the existing improvements in the area. The exception consists of limited areas in the vicinity of the Houston Ship Channel, which are currently experiencing subsidence.

Climate. The climate of Houston/Galveston is mild with temperatures ranging from 44 degrees to 88 degrees. The average annual rainfall is 43 inches and humidity ranges from 60 percent to 91 percent throughout the year. Prevailing winds are from the Gulf of Mexico and are moderate. Pollution is a factor due to the City's industry and heavy traffic flow.

Medical Facilities. Houston is known for its Medical Center. The Medical Center, as it is commonly termed, is one of the largest medical facilities in the world and includes M. D. Anderson, a cancer research and treatment center, and Texas Children's Hospital. Located in Galveston is the University of Texas Medical Center which employs thousands of employees. There is a medical school located in the complex under the University of Texas system. The complex encompasses approximately 2.5 square miles on the east end of Galveston Island. It was damaged in Hurricane Ike but was rebuilt and continues to expand.
Cultural and Entertainment Facilities. Library facilities in the area include the Houston Public Library System with numerous branches and bookmobiles. Nearly every major religion is represented in Houston by various churches and synagogues.

Convention facilities in Houston include: Toyota Center, Reliant Stadium complex and Jones Hall, Wortham and Hobby Centers. Additionally, there is the George R. Brown Convention Center. Adjacent to the Reliant Stadium which is a football stadium is the original Astrodome facility. Houston has many municipal parks and playgrounds, municipal golf courses, municipal swimming pools, softball and regulation baseball fields, tennis courts, and community recreation centers. Other cultural activities in the area include music, theater, ballet, and museums.

Economic Base. The Houston SMSA has a multiple industry-based economy to include: natural resources, manufacturing, marketing, merchandising, banking, research and development, oceanography, agribusiness, and the space industry. Natural resources in the area include: oil and gas, forest products, sulphur, lime, magnesium, barite, bromine, cement, clays, gypsum, perlite, sand and gravel, salt, shell, and vermiculite. United States petrochemical production is highly concentrated in the Houston-Gulf Coast region which has the majority of the Nation's basic petrochemical manufacturing capacity and a large capacity for first stage derivatives.

The Houston/Galveston area is one of the top-ranking industrial marketing centers in the Southwest. Other phases of the city's wholesale distribution facilities have expanded rapidly in scope of service and variety of inventory.

Oceanography related industries are growing in the Houston CMSA. The majority of the nations offshore operators have offices in the Houston/ Galveston area. There are three major universities, Rice, Houston, and Texas A & M, which are involved in oceanographic research. Major areas in research and development
are the Texas Medical Center and the Johnson Space Center, which controls the space program research, astronaut training program, and the space shuttle program.

The Houston CMSA is a major agribusiness center. Houston lies near the center of the Coastal Prairie, an area including 20 counties with generally flat topography and fertile soil. This area produces the majority of the rice grown in Texas. The Houston/Galveston area is the leading producer of agricultural chemicals, fertilizers, and insecticides. A large percentage of the export tonnage of the Port of Houston is agricultural commodities.

**Transportation.** The transportation system of the Houston CMSA includes the Port of Houston, the Intracoastal Waterway, air transportation, railroads, freeways, motor freight lines, bus transportation, and oil and gas transmission. The Port of Houston is the third largest seaport in the United States. It is first in terms of total foreign tonnage and is eighth worldwide in total tonnage. The Houston Ship Channel connects the Port and the City of Houston with the Gulf of Mexico. This channel is a 50-mile-long inland waterway. The Port of Galveston is also an important economic factor to the local economy.

The Intracoastal Waterway provides the Houston CMSA with low-cost barge transportation. This 1,777-mile waterway links Houston with 9,812 miles of commercially navigable waterways in the mid-continent regions of the Mississippi River and its tributaries, and with some 2,500 miles of waterways in the Gulf South. Some 8,410 miles of these waterways provide at least 9-foot draft.

Houston is a major air transportation center with numerous lines providing international, domestic, and commuter service. Houston Intercontinental Airport became operational in June of 1969. It is situated on 8,000 acres and located about 16 miles north of the Houston Central Business District between Interstate Highway 45 and U. S. Highway 59.
The Houston/Galveston area is also served by adequate railroad line service which reaches all major points of the city including the major industrial areas and the Port.

The freeway system is designated in Harris/Galveston County by the Texas Highway Commission. It radiates from the Houston Central Business District, and 3 concentric loops. The first loop is an elevated system circling the Central Business District. The second loop, Beltway 8, was recently completed and circles the city at a radius of approximately 12 miles. This loop is a controlled-access tollway in most areas. Future plans include the Grand Parkway, a third loop at a 25-30 mile radius from downtown Houston, encircling the city for 170 miles. The Hardy Toll Road is a 21.6 mile roadway which extends from Loop 610 North to the Harris County line. This thoroughfare is located in the corridor between Interstate Highway 45 and U.S. Highway 59. Additionally, there are various common-carrier truck lines, oilfield equipment haulers, tank truck lines, household carriers, and local delivery trucking firms in the area.

The city-owned Metropolitan Transit Authority provides local transit service with a fleet of buses daily, plus contract buses for Park & Ride Service, operating over a large route system. The Park & Ride system with parking lots designed to ease traffic congestion by offering rapid service for high-volume carriers to the Central Business District. The Houston/Galveston area is one of the nation's most important oil and gas transmission centers. One-half of the nation's major pipeline companies which transport natural gas are found in Houston. Many have their headquarters here and maintain major operating divisions in Houston operating the various natural gas and petrochemical pipelines.

Public Service and Utilities. Electrical power for Houston and the surrounding 560 square mile section of the Central Gulf Coast Area of Texas is served by Reliant Energy Company and Centerpoint Power Company, an investor-owned Texas utility company with its main offices located in Houston. Reliant provides natural gas for the Houston area. Western Union Telegraph
serves the area and telephone service is provided by SBC and Verizon Telephone Company.

**Taxes.** In the Houston CMSA there are no state, local, personal, or corporate income taxes. The only taxes generally applied to all types of Texas businesses are ad valorem taxes, corporate fees, and annual corporation franchise taxes. Certain businesses pay gross- receipt taxes, occupational taxes, and other taxes depending upon the nature of their operation.

**Conclusions.** Houston's economy has proven to been diversified enough over the past decline in energy prices in comparison to prior declines. Growth is evident in a variety of business centers. The city has become a major center of applied technology -- the engineering and medical management skills needed to use high technology. Many of Houston's new jobs are white-collar with industrial expansions improving blue-collar employment as well. Overall, the Houston area should remain more stable than the nation as a whole however.
NEIGHBORHOOD DATA

A neighborhood is defined in *The Dictionary of Real Estate Appraisal*, by the American Institute of Real Estate Appraisal of the National Association of Realtors as follows:

"A group of complementary land uses."

Neighborhoods may be devoted to such uses as residential, commercial, industrial, agricultural and civic activities or a mixture of these uses. Analysis of the neighborhood in which a particular property is located is important due to the fact that the various economic, social, political, and physical forces which affect that neighborhood also directly affect individual properties within it.

**Delineation.** The subject neighborhood is located in the incorporated area of Galveston in southern Galveston County. General access to the area is provided by IH-45 South (Gulf Freeway). For the purposes of this report, the neighborhood is defined as being bounded on the north, east and west by Galveston Bay and the Gulf of Mexico to the south.

**Major Traffic Carriers.** Major roadways in the area include IH-45 South (aka Broadway), 61st Street, 25th Street, Seawall Blvd., and Harborside Drive. The area is crisscrossed with numerous interior collector streets.

**Stage of Development.** The subject area is mixed use in nature, with single-family and multi-family dwellings, commercial and industrial properties. There are retail/commercial properties along the major roadways. The single-family homes are located in the interior areas. Single-family detached homes have varying values and age ranges, depending on location. There are also apartment complexes in the area, primarily being located on the major streets in the area. The commercial usage ranges from small, freestanding retail and office facilities to neighborhood shopping centers. There are also light industrial properties. There are generally utilities to most points in the sector of the neighborhood.
Galveston is subject to zoning ordinances. Galveston Island was devastated in fall of 2008 by Hurricane Ike and has been in constant recovery since then. Development in both residential and commercial businesses and construction has been increasing steadily with new residential resort construction evident. Overall, the subject property is considered to be in the stable stage of development with certain areas undergoing both revitalization and growth.

Political Jurisdictions. The subject property lies within the city limits of Galveston. The area is provided with police and fire service from the City of Galveston.
SITE DATA

The overall subject property consists of a 3.9342 gross acre or 171,372 square foot overall tract of land located on the corner of Broadway and 54th Street in the city limits of Galveston, Texas. The net usable acres which was used in this analysis is 3.7595 acres or 163,766 square feet and is discussed in the following paragraphs. Per the restricted covenants, the overall property has been divided into three (3) parcels consisting of:

- Outparcel 1- 2.0381 acre parcel
- Outparcel 2- 1.72145 acre parcel
- Access Easement- 0.1746 acre access road parcel

Outparcels 1 and 2 are generally rectangular in shape. The subject property is located in the 100 year flood plain and has access to public utilities. The subject property is reported to be zoned for Light Industrial with Gateway Development Overlay by the City of Galveston.

Outparcel 1 is located on the northern end of the primary tract and is on the hard corner of 54th Street and Ball Avenue. It contains 2.0381 acres or 88,778 square feet of area per the survey. This tract is not on Broadway but has reasonable visibility and access from its 256.46 feet of frontage on Ball Street (Avenue H) and 277.11 feet on 54th Street.

Outparcel 2 would be the smaller of the two outparcels and is located on the southwest corner of Broadway and 54th. This tract contains 1.7215 acres of land or 74,988 square feet per the survey provided. It has +-280 feet of frontage on Broadway and 278.48 feet on 54th Street.

There is also a 0.7146 or 7,607 square foot access road which will serve the adjacent properties with access to 54th Street. The access easement was not considered to have a contributory value and therefore not valued in this analysis.

HIGHEST AND BEST USE
“AS VACANT”

In accordance with standard accepted appraisal practice, a property must be appraised in terms of its Highest and Best Use. According to the Dictionary of Real Estate Appraisal by the American Institute of Real Estate Appraisers, Highest and Best Use is defined as:

1. The reasonable and probable use that supports the highest present value of vacant land or improved property, as defined, as of the date of the appraisal.

2. The reasonably probable and legal use of land or sites as though vacant, found to be physically possible, appropriately supported, financially feasible, and that results in the highest present land value.

3. The most profitable use.

The procedure used in this report to estimate the Highest and Best Use of the subject property was to consider, in sequence, the subject's probable use, its legal use, its profitable use, and finally, the optimum or Highest and Best Use. Data collected and analyzed for purposes of a Neighborhood Analysis, and particularly the Site Data, was useful in arriving at a final decision. Because the use of land can be limited by the presence of improvements, Highest and Best Use is determined for (a) the land or site as though vacant and available to be put to its Highest and Best Use, and (b) the property as improved.

PROBABLE USE. Relative location, size, terrain, plottage and utility availability are generally considered the most important factors in determining the uses to which land may be developed. The size of a tract is important for determination of probable uses because some small tracts, due to limited size, can reach their optimum use only as part of an assemblage of several tracts. Large tracts, on the other hand, are not as restricted by size and have a much wider range of probable uses. The overall subject property consists of a primary tract of land containing an overall total of 3.93415 gross acre/171,372 square feet
of land area. As noted however, the overall parent tract is currently divided by a 0.1746 acre access road and is therefore divided into a front 1.7215 acre outparcel and a rear 2.0381 acre outparcel. For the purposes of this report, the access road was not considered to have any contributory value to the overall property and was not included in this analysis resulting in 3.7595 acres or 163,766 square feet. These outparcels have adequate size and dimensions for construction of most probable types of commercial uses prevalent in the subject's market area. A tract's topography and subsoil conditions are also important considerations in determining its probable uses. If a site's topography or subsoil conditions make utilization restrictive and costly, the site's potential future use is adversely affected. As mentioned previously in the Site and Improvement section of this report, based on our personal inspection, the subject tract is located in a designated flood hazard area. However, this is typical of most tracts situated on Galveston Island. Currently, public utilities are reported available from the City of Galveston in adequate capacity to develop the subject property for most anticipated uses. A need for capacity beyond the available service is not anticipated in the short term.

**LEGAL USE.** Private (deed) restrictions, zoning regulations, building codes, historic district controls, and environmental regulations can often preclude a possible Highest and Best Use. The subject property is reported to be zoned for Light Industrial with Gateway Development Overlay by the City of Galveston. This district allows a reasonable degree of development uses. The subject property does have deed restrictions in place which restrict certain types of uses and developments. Such prohibited uses include liquor stores, taverns, bars, or any sale of alcoholic beverages, bowling alleys, pool halls, amusement centers, theaters, health club/spas, gas stations/automotive repair shops, pawn shops, child day care, medical or emergency clinic or some types of medical offices, mini or general storage uses, car/truck rental, laundry/dry cleaning plants, hotel/motel, schools, colleges and/or training centers, veterinary hospital or boarding facilities, sexually oriented businesses, skating rink funeral home, mortuary, mobile home/trailer court, junk yard, stockyards, manufacturing
assembling industrial, distilling and smelting.

**PROFITABLE USE.** From a financial standpoint, any property use which is expected to produce a positive rate of return is regarded as being profitable. Factors that dictate which property uses are sufficiently profitable include those which determine the probable and legal uses, as well as other important factors, such as the shape, frontage, location of the tract, access to the tract, adjacent property uses (in the interest of conformity), and the general neighborhood characteristics. These factors, along with pertinent market (and commerce) information, help determine what return could be expected from alternative property uses. The subject property is located in a neighborhood that provides a good commercial and supporting residential environment with adequate access to services, major thoroughfares and transportation facilities in this area. Further, the neighborhood development trend has established residential and commercial patterns with commercial uses on the major thoroughfares. There presently is new construction and revitalization evident in the general area of Galveston. In our opinion, the most profitable use for this property “As Vacant” is for future commercial development.

**SUMMARY.** The Highest and Best Use of the subject property “As Vacant” is considered to be for commercial development.
THE COST APPROACH

The Cost Approach is also called the summation approach to estimating value. In this approach, the most probable current cost of reproducing all improvements to a property is estimated. This estimate of cost new is subtracted from accrued depreciation. Physical deterioration and obsolescence account for accrued depreciation, with the most significant component of physical deterioration usually being the limited economic life of structures. After depreciation is subtracted from cost new, the resulting depreciated value is added to site value, as previously developed. Reproduction cost estimates may be developed from comparison to newly constructed local buildings or from available cost estimation services.

Depreciation, physical deterioration, and functional or economic obsolescence, may be curable or incurable. Curable items are those conditions which a prudent purchaser would anticipate correcting upon purchase of a property whereas incurable items maintain sufficient value not to warrant correcting as of the date of appraisal. The Cost Approach to value estimate is valid if the land value estimate is sound, if reproduction costs have been accurately estimated, and if the estimate of depreciation is correct. Estimation of this latter factor is not subject to precise determination and largely depends upon the experience and judgment of the appraiser. The older a property and the more accrued depreciation, the less reliable the Cost Approach is generally believed to be.

THE COST APPROACH WAS NOT USED IN THIS ANALYSIS.
INCOME APPROACH

The Income Stream is analyzed by way of several methods as follows:

1. Obtain actual rent schedules for the property being appraised as well as the comparable properties in the area, then derive the gross rental data as well as projected gross income expectancy.
2. Appraiser obtains and analyzes the actual occupancy data for the subject property and for the comparable properties in the area. Then a projected occupancy rate is estimated for the subject property which is deducted from the gross income to arrive at an adjusted gross income estimate.
3. Appraiser obtains and analyzes expense data such as taxes, insurance, utilities, and other pertinent costs for the property being appraised and other comparable properties in the area. An expense estimate is derived for the property which is deducted from the adjusted gross income to derive a net income estimate.
4. Appraiser selects the appropriate capitalization rate.
5. Using capitalization rate, appraiser derives estimated market value by way of net income.

THE INCOME APPROACH WAS NOT USED IN THIS ANALYSIS
DIRECT SALES COMPARISON APPROACH

The Direct Sales Comparison Approach is the method of estimating Market Value by making direct comparisons of the subject property with similar properties that sold recently under normal sales conditions. Adjustments are often made to sales to enhance comparability, for such factors as date of sale, terms of financing, size, age, condition, construction, appeal and site. This approach applies the principle of substitution in that a prudent purchaser would pay no more for a real property than the cost of acquiring an equally desirable substitute on the open market. Therefore, sales and/or listings of properties with comparable location, characteristics and/or future earning capabilities would influence a prudent purchaser by offering alternative investments. This is the only approach which directly reflects the balance of supply and demand in actual trading in the market place.

Units of comparison employed in the market are used to compare the comparable sales directly to the subject. Assuming reliable sales information to be available, this method is often recommended above all others.

A unit of comparison is the value derived by dividing the sale price of the similar properties by the square foot, room, unit or other unit of comparison, depending upon property type. son applies to income characteristics of similar properties. The unit of measure was the price per square foot of land area.

DISCUSSION ON LAND VALUE

The subject's competing market place was researched and those available land sales and listings in the subject's market area in order to compare against the subject property. The land sales used were all considered commercial properties which were located on generally similar locations when compared to the subject tracts. Outparcel 1 and 2 represent tracts of land which have different locational qualities, we have analyzed each parcel separately using a differing set of comparable land sales. These land sales had a wide range of unit values even within each category. In this analysis, land sales 1, 2 and 6 were compared with Outparcel 1. Land sales 3 thru 6 were compared to Outparcel 2. The following discussion on the adjustments to the land sales follow for each of the Outparcels.

**Outparcel 1.** Outparcel 1 is located on the corner of 54th Street and Ball Avenue. It contains 2.0381 Acres or 88,778 square feet of area per the survey. This tract has reasonable visibility and access from its 256.46 feet of frontage on Ball Street (Avenue H) and 277.11 feet on 54th Street. Before any adjustments, the land sales had a unit values between $6.36 PSF to $9.00 PSF, depending on various aspects such as location, site size/shape, access, etc. The most comparable sales in terms of proximity to the subject property were Sale 1 and 2 which were located just northwest of the subject property off of Ball Street at 57th Street. Sale 1 was an interior tract, accessed via an easement and was given a positive adjustment for inferior access when compared to the subject's corner location. Sale 1 was also given a negative adjustment for having a smaller size when compared to the subject property. Sale 3 was given a positive adjustment for a larger site size and a negative adjustment for having a superior location on both Broadway and Ball Street when compared to the subject. After adjustments, the unit value range of the land sales for Outparcel 1 was between $6.36 PSF to $9.45 PSF with a value indicator of $9.00 PSF.

**Outparcel 2.** This outparcel is located on the corner of Broadway and 54th Street. This tract contains 1.7215 gross acres of land or 74,988 square feet per the survey provided. It has +-280 feet of frontage on Broadway and 278.48 feet on 54th
Street. Sale 4 is adjacent to the subject property and consists of a 10.164 acre tract sold to Lowes Home Center. The remainder of the land sales were located on Broadway but were smaller in size than the subject. Sales 3, 4, and 5 were all given a negative size adjustment for having smaller tract sizes when compared to the subject tract. Sales 2 and 3 were given positive location adjustments when compared to the subject property. All of the sales were given positive corner/access adjustments when compared to the subject property. After adjustments, the unit value range of the land sales for Outparcel 2 was between $9.79 PSF to $26.42 PSF with a value indicator of $15.00 PSF.

As part of the analysis we did not attribute any contributory value to the access easement between Outparcels 1 and 2. In conclusion, the estimated market values for the two (2) subject tracts are as follows:

\[
\text{OUTPARCEL 1 - 2.0381 Acres/88,778 SF X $9.00 PSF} = 710,224
\]

\[
\text{OUTPARCEL 2 - 1.7215 Acres/74,988 SF X $15.00 PSF} = 1,124,820
\]

\[
\text{TOTAL} \quad 1,835,000 - \text{Rounded}
\]

This equates to an averaged value of $11.21 per square foot for the overall net usable tract.

RECONCILIATION OF APPROACHES

As discussed in the Appraisal Process section of this report, there are three traditional approaches to value. The Replacement Cost Approach and Income Approach were not used in this analysis since the subject property was unimproved. Only the Direct Sales Comparison Approach was used to value the subject tracts since they involve only unimproved land.

The strength of the Direct Sales Approach is that it attempts to directly measure the actions of the buyers and sellers in the marketplace. Its weakness is that no two properties are alike and the process of making adjustments is a sometimes difficult and inexact process. In order to utilize the Direct Sales Comparison Approach, land sales in the general subject neighborhood of Galveston analyzed. This market data (land sales) was adjusted for size, location, date of sale, corner influence, utility, and size. Additionally, those sales which were considered to be the most comparable to the subject property were identified and compared, one-on-one, to the subject.

In conclusion, the estimated market values of the subject tracts as of February 25, 2017 (Date of Last Inspection) via the Direct Sales Comparison Approach is as follows:

If you do not have a number, see how to get a TIN on page 3.

Part II: Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued), and
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you also certify that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners’ share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester’s form if it is substantially similar to this Form W-9.

Definition of a U.S. Person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners’ share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see Special rules for partnerships on page 1.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

1See Form 1099-MISC, Miscellaneous Income, and its Instructions.
2However, the following payments made to a corporation (including gross proceeds paid to an attorney under section 6045(f), even if the attorney is a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys’ fees, and payments for services paid by a federal executive agency.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS Individual taxpayer Identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see How to get a TIN below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see Limited liability company (LLC) on page 2), enter the owner’s SSN (or EIN, if the owner has one). Do not enter the disregarded entity’s EIN, if the LLC is classified as a corporation or partnership, enter the entity’s EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at www.ssa.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer Identification Number (EIN) under Starting a Business. You can also get Forms W-7 and SS-4 from the IRS by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, write “Applied For” in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering “Applied For” means that you have already applied for a TIN or that you intend to apply for one soon.

Caution. A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, and 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). Exempt payees, see Exempt Payee on page 2.

Signature requirements. Complete the certification as indicated in 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.
3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

### Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:
- Protect your SSN.
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

Call the IRS at 1-800-829-1040 if you think your identity has been used inappropriately for tax purposes.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/ID 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common scam is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to steal the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS personal property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at spam@uce.gov or contact them at www.consumer.gov/idtheft or 1-877-438-4338.

Visit the IRS website at www.irs.gov to learn more about identity theft and how to reduce your risk.
